

MASTER PROMPT — TAATOM NUTRITION COMMAND CENTER

PROJECT CODE NAME

TAATOM FOLLICLE PROTOCOL A premium mobile-first nutrition operating system designed for hair health, metabolic optimization, scalp recovery, micronutrient tracking, and long-term dietary adherence.

MISSION

Build a world-class React + Firebase web application that transforms a hair-growth and metabolic-health diet plan into an interactive daily operating system.

This is NOT a simple diet tracker.

This should feel like:

- Apple Health × Duolingo × Notion × Superhuman
- Premium habit tracker
- Beautiful health dashboard
- Personal nutrition command center

The experience should be addictive, rewarding, visually stunning, and designed for long-term adherence.

TECH STACK

Frontend:

- React
- TypeScript
- Vite
- TailwindCSS
- Framer Motion
- GSAP
- React Query
- Zustand

Backend:

- Firebase Authentication

- Firestore
- Firebase Storage
- Firebase Analytics
- Firebase Cloud Functions

Deployment:

- Firebase Hosting

PWA:

- Fully installable mobile web app
 - Offline support
 - Push notifications
-

DESIGN SYSTEM

Design Language

Neobrutalism 2.0

Not generic neobrutalism.

Mix:

- Neobrutalism
- Premium Health Tech
- Modern Wellness
- Gamification

Reference quality:

- Duolingo
 - Headspace
 - Apple Fitness
 - Notion Calendar
 - Arc Browser
 - Linear
-

COLOR SYSTEM

Light Mode

Background:

FFDF7

Primary:

0057FF

Secondary:

00D5B5

Accent:

FFB703

Success:

32D74B

Warning:

FF7A00

Danger:

FF3B30

Card Colors:

- Mint
- Lavender
- Coral
- Sky Blue
- Yellow

- Peach

Bold black borders: 4px

Shadows: 8px offset brutal shadows

Rounded: 24px

Dark Mode

Background:

111111

Surface:

1B1B1B

Primary:

4D8DFF

Secondary:

ANIMATION SYSTEM

Use Framer Motion extensively.

Every interaction must feel alive.

Animations:

- Card pop-in
- Streak celebration
- Progress filling
- Floating nutrient particles
- Achievement unlock
- Daily completion fireworks
- Smooth calendar transitions
- Hover physics
- Bounce effects
- Micro interactions everywhere

Target: 60fps

APP STRUCTURE

Splash Screen

Animated logo reveal.

Healthy nutrient particles floating.

Text:

"Your follicles are built in the kitchen."

CTA: Begin Mission

ONBOARDING

Ask:

Age

Gender

Height

Weight

Hair concerns:

- Hair fall
- Thinning
- Dandruff
- Receding hairline
- Slow growth
- Premature greying

Lifestyle:

- Vegetarian
- Eggetarian
- Non-Vegetarian

Water intake

Sleep duration

Stress level

Exercise frequency

Generate personalized targets.

MAIN DASHBOARD

A stunning command center.

Display:

Today's Compliance Score

Hair Health Score

Protein Progress

Iron Progress

Biotin Progress

Hydration Progress

Sleep Progress

Current Streak

Monthly Completion %

Animated circular gauges.

Everything updates in real time.

CALENDAR SYSTEM

Most important feature.

Create a beautiful habit calendar.

Month View

Week View

Day View

Color codes:

Green: Completed

Yellow: Partially completed

Red: Missed

Blue: Perfect day

Tap any date.

Open complete nutrition log.

Animated transitions.

GitHub contribution style heatmap.

DIET PLAN ENGINE

Convert the following protocol into structured meals.

PHASE 1

THE IGNITION SEQUENCE

07:30–08:30

Goal: Protein Iron Biotin

Options:

1. Egg Protocol
2. 4 Eggs
3. Murungai Keerai
4. Black Pepper

Nutrition: Protein Biotin Vitamin D Iron

1. Pesarattu
2. Green Gram Dosa
3. Sesame Oil
4. Peanut Garlic Chutney

Nutrition: Protein Fiber Iron

1. Millet Infrastructure
2. Kambu Dosa
3. Ragi Dosa
4. Mint Chutney
5. Coriander Chutney

Nutrition: Calcium Fiber Antioxidants

1. Sprout Bowl

2. Green Gram Sprouts

3. Lemon

4. Mustard Tempering

Nutrition: Vitamin C Iron Fiber

PHASE 2

SUSTAINED PAYLOAD

13:00–14:00

Base Layer:

- Karuppu Kavuni
- Thinai
- Varagu
- Red Matta Rice

Protein Layer:

- Country Chicken
- Rajma
- Karamani
- Soya Chunks
- Fish

Micronutrient Layer:

- Keerai
- Pavakkai
- Avarakkai
- Kothavarangai

Display each nutrient visually.

PHASE 3

CIRCULATORY BRIDGE

17:00–17:30

Options:

- Black Chickpea Sundal
- Mochai Sundal
- Pumpkin Seeds
- Sunflower Seeds
- Almonds
- Roasted Makhana

Display DHT-support metrics.

PHASE 4

METABOLIC SHUTDOWN

19:30–20:30

Options:

- Bone Broth
- Mutton Rib Soup
- Paneer
- Tofu
- Egg Salad
- Murungai Soup
- Mushroom Soup
- Shredded Chicken

Display overnight recovery benefits.

ADVANCED DIET DETAILS

For every meal show:

Protein

Carbs

Fat

Fiber

Iron

Zinc

Biotin

Vitamin D

Vitamin C

Magnesium

Estimated calories

Hair growth score

Inflammation score

Glycemic impact

Recovery impact

Display beautifully using animated nutrient cards.

MEAL COMPLETION SYSTEM

Every meal has:

Mark Completed

Skip

Replace

Add Notes

Add Photo

Mood after meal

Energy after meal

Scalp condition

Hair shedding level

Store everything in Firestore.

DAILY SCORING ENGINE

Calculate:

Protein Compliance

Iron Compliance

Hydration Compliance

Hair Health Compliance

Diet Adherence

Generate:

Daily Score

Weekly Score

Monthly Score

Overall Health Rating

HYDRATION COMMAND CENTER

Track:

Water Intake

Target

Remaining

Animated water bottle.

Milestone celebrations.

HAIR RECOVERY DASHBOARD

Track:

Hair Fall

Density

Dandruff

Growth

Scalp Itching

Upload weekly photos.

AI timeline slider.

Before-after comparison.

STREAK SYSTEM

Gamification:

3 Days: Hair Apprentice

7 Days: Scalp Guardian

15 Days: Follicle Warrior

30 Days: Hair Architect

60 Days: Growth Commander

90 Days: Follicle Legend

Unlock badges.

Animated rewards.

NOTIFICATIONS

Morning: Breakfast mission unlocked

Lunch: Protein payload ready

Evening: Bridge protocol pending

Night: Metabolic shutdown required

Push notifications via Firebase.

INSIGHTS PAGE

Generate charts:

Protein trend

Iron trend

Hydration trend

Compliance trend

Hair score trend

Use beautiful animated charts.

SETTINGS

Theme toggle

Light Mode

Dark Mode

Export data

Backup data

Firebase sync status

UI REQUIREMENTS

Every page must look:

Premium

Playful

Colorful

Alive

World-class

Mobile-first

No boring tables.

No generic dashboards.

Everything should feel handcrafted.

Use:

- Large visual cards
- Nutrient chips
- Progress rings
- Animated illustrations
- Floating gradients
- Brutalist shadows
- Delightful transitions

Target quality: Top 1% health application.

When users open the app, they should immediately feel:

"This is the most beautiful diet tracker I have ever used."

Generate complete React architecture, Firebase schema, Firestore collections, component hierarchy, routing structure, state management, animations, UI screens, and production-ready implementation plan.
